About the project..

TRANSNATIONAL PROJECT "CULINARY TRADITIONS OF THE REGIONS IN A MODERN EDITION - EDITION 2022"

Project objectives - strengthening the key competences of participants, digital, linguistic, personal and social competences in the field of awareness of cultural expression.

Location: Platamonas, Greece - Olympic Melathron Hotel

Partner school: Platon School, Katerini

About the participants ...

Participants, taking part in the project, are students of the Zespół Szkół Rolnicze Centrum Kształcenia Ustawicznego im. Bohaterów Walk nad Bzurą 1939r. in Sochaczew, from the Secondary School, profile: Biology, Chemistry and English. Students developed key competences, learned about the traditions of the host country, broadened their knowledge and experience, and improved their language skills.

About sending school...

**ZESPÓŁ SZKÓŁ ROLNICZE CENTRUM
KSZTAŁCENIA USTAWICZNEGO
IM. BOHATERÓW WALK NAD BZURĄ 1939R.
IN SOCHACZEW**

Our school has a long tradition. It is known in the environment of Sochaczew and its surroundings. It has an excellent didactic base and experienced professional staff, guaranteeing a high level of teaching. The main goal of the implemented curriculum is the intellectual, emotional and ethical development of a young person as well as success in the matriculation and vocational exams.

About the host school ...

PLATON SCHOOL KATERINI, GREECE

The main goal of the school is a holistic approach to the issues of education, which is why this school trains its students to see life as complete personalities. The Platon School combines tradition with innovation and through dynamic, pioneering European programs, it strives to shape citizens with a national conscience and civic culture at the same time, so that they can meet the requirements of the present.

"Education is a power that heals the soul"
Plato, the Greek philosopher (427-347 BC)

Mobility ...

Our trip started on October 9, 2022,
and ended on October 22, 2022.

The program was intense and very interesting,
both substantively and culturally.

Classes were held at the Platon school in Katerini
and in the field in the form of workshops, during
which we gathered information to develop and
analyze in class.

Mobility – continued

Our pilot and guide has a lot of knowledge and she passed it on to us in an interesting way. From this educational trip we gain a lot of new experiences, information about local traditions, digital and language skills.

The theme of mobility...

The main goal of this trip was to increase the key competences of 20 Polish and 10 Greek students. The mobility program was interdisciplinary. As part of the classes, we implemented a program of activities in IT studios, production plants, olive orchards and restaurants. During the mobility in a personal way, thanks to the implementation of visits, meetings, visiting public places, institutions, we acquired the knowledge necessary to prepare content for the blog, giving this message a more practical and credible message. Interacting with as many people as possible, communicating in English strengthened our linguistic, personal and social competences. Classes in computer labs strengthened digital skills.

Substantive classes during mobility

Negotiation classes

During these classes, we learned about many negotiation techniques that we ourselves use more or less consciously.

Wordpress lessons

During these classes, we learned how to run a blog using Wordpress, which users will read with interest.

Canva classes

We learned how to use a graphic program that allows us to create our own projects.

Classes at Platon School

Thanks to the classes in English, we were able to improve our digital and language skills and get to know Greek mythology and the alphabet better.

Czy zajęcia terenowe to ciekawa forma realizacji zadań?

Outdoor activities are an interesting form of task implementation.

They are a good opportunity to test your knowledge of the English language and test yourself in stressful situations in an unfamiliar place. During such classes you can meet many interesting people and create memories that will stay with us for the rest of our lives.

Cultural activities

Visited places

- Thessaloniki
- Old Panteleimon
- monasteries in Meteora
- Icon making workshop
- Skiathos Island

Mobility results

- We learned the forms of negotiation
- We got to know the use of the graphics program
- Our digital skills have grown
- We gained knowledge about creating blogs in Wordpress
- Our level of language competence has increased
- We got to know the education program in Greece

Mobility effects

Establishing cooperation with people we have known so far.

The honor of being hosted by one of the private Greek schools to study and get to know their education better.

An opportunity to test yourself and use our own knowledge of foreign languages, including English.

Getting to know "on your own skin" how unique is Greek culture, which still draws on its many years of history.

A chance to learn completely new things that we have never dealt with before, not as we see at first glance.

Creation of a culinary blog - increase in competence and digital skills.

Why is it worth taking part in mobilities?

Because it's an amazing adventure!

Building unity, despite diversity and exchange of experiences.

It is an opportunity for professional development for the teaching staff and key competences for students.

International projects are a gateway to new opportunities, improving competences, meeting new people and cultures. It also gives the opportunity for a wider range of school activities.
